David M. Musgrave Named Senior Vice-President of Toeniskoetter Construction, Inc.

Longtime Colleague Joins New Construction Company Team

SAN JOSE, CA (June 9, 2010) Toeniskoetter Construction, Inc. announced the addition of longtime colleague David M. Musgrave to their growing construction team. In his position of Senior Vice-President, Musgrave will be responsible for expanding the capacity of the Toeniskoetter construction team as well as their growing client base.

“We have had a long, successful relationship with Dave through-out the years and are looking forward to expanding that,” said Dan Amend, President of Toeniskoetter Construction, Inc. “He brings with him great relationships with local government agencies in the South Bay as well as in Palo Alto and Sunnyvale. He is already one of the team.”

Musgrave worked with Toeniskoetter & Breeding, Inc. Construction for more than 22 years. In 2005, he took some time off to complete a certificate in San Jose State University’s Geographic Information Science program, which studies the creation, manipulation, analysis and display of geographic information.

Once he completed the program, Musgrave spent almost two years as the project

manager for the University of California at Berkeley Alumni Association’s Resort at Pinecrest: Lair of the Golden Bear. During that time he worked with Caltrans, the U.S. Forest Service and Tuolumne County to initiate a bidding, permitting and construction program to build more than 100 projects through-out the facility, resulting in infrastructure modernization, increased Lair capacity and a better overall family camping experience.

Musgrave serves on the Building Code Appeals Board for the City of Sunnyvale. The three member panel has final decision-making authority on all appeals related to green building issues and building construction, including interpretation of building codes.

Musgrave also serves as a volunteer advisor to the University of Oregon’s School of Architecture and Allied Arts Design Bridge Program. The program specializes in bridging the gap between design and construction. Design Bridge students work to complete projects for community organizations in and around Eugene, Oregon.

About Toeniskoetter Construction, Inc. Toeniskoetter Construction, Inc. was founded in 2009 by industry veteran Charles J. Toeniskoetter. Headquartered in San Jose, California, Toeniskoetter Construction, Inc., specializes in the highest quality tenant improvements. Its management team brings more than one hundred years of collective experience in the construction industry to the greater San Jose area.
